How to Make Stock Contributions to Search Ministries:

Advise Search of the Stock Contribution - Please contact our Operations Manager, Grace Hayes, with the designation (Search Area to receive the funds), the number of shares and the identity of the stock. This may be done by phone, email, or fax. This helps to ensure efficient processing of your gift. Please do not rely on your stock broker to provide this information.

If your shares are held in a brokerage account - Ask your broker to make an electronic transfer of the shares to the Search stock contribution account as follows:

**Wells Fargo Advisors
Attn: Steve Mayer or Jackie Speth
DTC Account # 0141 - For Credit to Acct. # 8028-8815, Search Ministries, Inc**

Once the stock is transferred into Search's account, we will receive notification of the transfer, and a receipt will be sent to you in approximately two weeks. The effective contribution date for tax purposes is the date the shares are placed into our account, and the value of your gift is the stock price on that date. You will receive this tax information from your broker.

If you have additional questions or concerns about giving a gift of stock to Search Ministries, please don't hesitate to contact us. We are very grateful to you, and to the Lord, for your gift!
